- US route
- US interstate

Tax parcel maps must not be used for property boundary description, conveyance, or determination of legal title. Property descriptions must be obtained from surveys or deeds. Town-wide tax parcel map compilation results in a new, seamless dataset that is derived from many sources, most notably, surveys, deeds, and ortho-photographs. These maps shall be interpreted as the best available compilation, but shall not be substituted for survey or deed information. Tax parcel data can be used as a visual index for tax parcel assessment and as a visual reference for developing or interpreting zoning boundaries.
