

1/17/23

ATTENDEES

Mike Zwikelmaier, Sam Brakeley, Scott Chesnut, Dick Rueben, Dan Deneen

AGENDA

- **Green Up Day 2023** - Some ideas that were talked about include: Asking people to sign up for road clean up at the School and Town meetings, Dick mentioning the possibility of an intern, and Mike will talk with Mary to see how TSA might participate. We would like the next meeting to focus on Green Up Day and to invite Donna Foster and Steve Gagliadorne as they have asked to participate.
- **Ski Trails in Downer Forest** - It's estimated that about half of the new trail in the annex block has been cleared and it will take 2 more days to clear the remainder. We will turn to this after the gates open again in Spring.
- **Ashley Forest** - We batted around some ideas about ways to participate: Invasive removal? Highlighting the diversity of trees?
- **The White River** - The White River Partnership is pursuing a grant to improve the river access across from TSA. We may want to sponsor some Green Up Day cleanup at the other site, and keep eyes out for a larger grant to help improve access there.
- **Other Business** - Can we create or improve a trail from Downer Forest to the Swett land? Mike will approach the Sears family.
